

IS YOUR SUPPLY CHAIN SLOWING YOU DOWN?

SUPPLY CHAIN MATURITY CHECKLIST

This self-guided checklist helps you assess your current supply chain maturity and uncover where Redwood’s logistics and technology expertise can drive meaningful impact.

1

BUSINESS GOALS & ALIGNMENT

- ☐ Our primary focus is on cost savings
- ☐ Our supply chain is not a competitive differentiator
- ☐ We have minimal standardized operating procedures
- ☐ It's difficult to model ROI from our systems and processes

2

TECHNOLOGY & INTEGRATION

- ☐ We’re using legacy on-premise TMS, WMS, or GTM solutions
- ☐ Data silos exist between supply chain platforms (TMS, WMS, GTM, ERP)
- ☐ System updates or patches cause downtime or delays
- ☐ Aging infrastructure poses increased security risks

3

PERFORMANCE & VISIBILITY

- ☐ We lack end-to-end visibility across our supply chain
- ☐ Real-time, data-driven decision-making is not possible
- ☐ Automation and orchestration are minimal
- ☐ We cannot effectively collaborate with customers or partners

4

RESOURCES & PRIORITIES

- ☐ Our IT team has limited bandwidth for supply chain transformation
- ☐ We have no visibility into product roadmaps or support timelines
- ☐ We lack a trusted partner for implementing supply chain technology
- ☐ Our internal team lacks logistics and supply chain-specific expertise

YOUR SCORE:

0–3 boxes checked: You are operating efficiently, but is your supply chain future-ready?

4–7 boxes checked: Time to realign. You may be at risk of costly inefficiencies.

8+ boxes checked: Your supply chain is highly vulnerable. It is time to take action.

WHAT’S NEXT?

Redwood helps the world’s most complex logistics operations modernize quickly, with minimal disruption.
