

Hungry for Logistics Success in Food & Beverage?

Redwood serves up the solutions you need to maximize product quality, safety, speed and cost-effectiveness.

Storing and transporting Food and Beverage product is much more challenging than moving durable goods. Shippers in this industry face these and other complexities:

On-Time Delivery to DCs, Grocers, Retailers, & Stores

Strict safety and quality protocols

Temperature controls and other special handling

Real-time shipment tracking & planning visibility

Regulatory compliance and carrier standards

What Food & Beverage Customers Can Expect From Redwood

- Deep understanding of food & beverage challenges from sourcing to delivery.
- Battling through seasonal, promotional and unexpected demand surges.
- Access to a vast network of carriers and transportation assets.
- Advanced supply chain tech paired with best-in-class logistics execution.
- Tailored plans to optimize inventory, minimize costs, and connect your systems.
- In-house project management expertise.

R

From sourcing raw materials to delivering products to consumers, Redwood knows Food and Beverage.

We provide value through:

1

Deep industry experience

We're experts at our craft. With over two decades of experience, our customer list includes some of the world's leading Food and Beverage brands.

2

Fully outsourced solutions

From outsourced transportation management to freight brokerage services and technology, we help customers maximize their quality and service outcomes while minimizing costs.

3

Advanced supply chain technology

Real-time tracking, end-to-end visibility, multi-platform connectivity and network data aggregation — best-in-class solutions from Redwood answer these real-world requirements.

4

Proven capacity options

You need trusted partners with tailored capabilities and a track record of performance. Access Redwood's network of highly qualified carriers and F/X fleet that handle every capacity need.

5

Regulatory compliance

Redwood understands regulatory requirements and industry standards for food safety, labeling, handling and storage, as well as documentation and reporting.

6

Flexibility and scalability

Whatever your needs, Redwood delivers tailored solutions based on your business's most urgent gaps. We build adaptable systems that grow alongside your business, no matter the direction.

7

Cost reduction capabilities

We offer in-depth carrier contract audits to identify areas for improvement and ensure you're getting the most out of your existing contracts.

8

Warehousing

Redwood streamlines warehousing by tackling inventory, fulfillment, distribution, compliance, returns, seasonality & specialized storage needs.

Redwood offers a full menu of capabilities.

As a modern, full-service 4PL, Redwood has no majority stake in a single solution — and we know one size does *not* fit all. You can choose from our comprehensive services and solutions, including:

Truckload shipping and API Rating tools

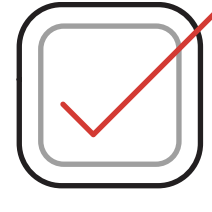

Less-than-truckload shipping and execution tools

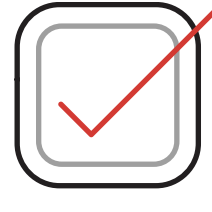

Parcel Execution Software

Carrier contract advisory services

Temperature-controlled transportation

Managed Transportation

Warehousing and Distribution

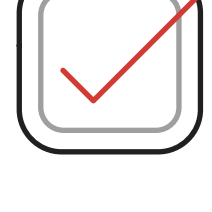

Freight Brokerage

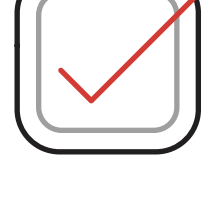

Cross-Border Logistics Solutions

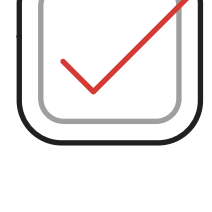

Project Logistics

Sustainability Tools, Emissions Tracking, and Carbon Offsets

Systems Integration and Implementation for WMS and TMS

Proprietary iPaaS – RedwoodConnect

In an industry where quality, safety and delivery speed are paramount, Redwood helps food and beverage customers tackle these challenges head-on. **Discover the Redwood advantage today.**
