

Driving Logistics Success in Industrial Machinery and Equipment

You have big transportation challenges. Redwood's solutions and services are built to solve them.

Not all logistics projects are created equal. Industrial machinery and equipment come with their own challenges.

Large or unusual product size and weight

Specialized carrier and handling needs

Strict safety and quality protocols

Regulatory compliance and permitting

Route planning for road conditions and clearances

What Industrial Machinery & Equipment Customers Can Expect From Redwood

- Deep manufacturing logistics and procurement experience.
- Industry knowledge - machinery, protocols, regulations, and more.
- Access to a vast network of carriers who are experts in industrial shipping.
- Advanced supply chain tech paired with best-in-class logistics execution.
- In-house project management expertise.

R

Moving industrial machinery and equipment isn't easy— so don't trust just any logistics services provider. Redwood offers the unique qualifications you need:

1 Deep logistics experience.

Hundreds of the world's leading companies rely on Redwood for their logistics and supply chain needs.

2 Industry knowledge

Redwood understands machinery types, handling protocols, regulatory issues and other special factors.

3 Vendor relationships

Access Redwood's vast network of carriers and transportation assets that span every route and every mode.

4 Advanced technology

Redwood leverages best practices and best-in-class solutions to track shipments in real time, identify issues and pivot seamlessly, delivering connected awareness and responsiveness across systems.

5 Project management expertise

Redwood has the resources to bring your project in safely, compliantly, on time and under budget — no matter how complex the challenge is.

What exactly does Redwood deliver?

Redwood is a modern, full-service 4PL. That means you can pick, choose, plug and play among our partners, services and solutions to meet your specific challenges. We deliver a full range of capabilities, including:

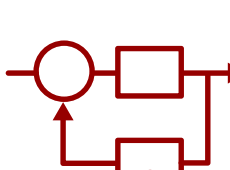

Truckload shipping

Less-than-truckload shipping

Parcel shipping and advisory services

Project logistics

Cross-border logistics

Managed transportation

Warehousing and distribution

Freight brokerage

Sustainability tracking and improvement

Systems Integration & Implementation

No logistics challenge is too big, or too tough for Redwood. Together, we can move mountains!
